IRON-ON TRANSFER

CAUTION: We recommend this iron-on be applied by an individual 16 years of age or older.

FOLLOW THESE EASY STEPS:

1. Place a sheet of paper inside the shirt and another sheet of paper over the transfer.
2. Adjust the iron to the linen setting. Use a dry iron.
3. Apply the hot iron over the entire transfer for 30 seconds. Keep the iron moving as you do this.
4. When you're through, peel up a corner of the transfer to check the color. If necessary, iron for a few more seconds. Let transfer cool before removal.

NOTICE: While this transfer has been designed and tested to produce good results when applied as instructed, Estes Industries will not be responsible for quality of reproduction, intensity of color or fabric resistance to high temperature required for application of iron-on.
